Give the Gift of Time
Volunteer with SCBC

As a blood donor, you help save someone's life every time you donate blood. But have you ever considered going a step further and becoming a volunteer?

Volunteering with the blood center provides individuals with a unique opportunity to give back to the community and learn new things. With your valuable donation of work hours as a volunteer, you will be assisting in the blood center's continuing mission to provide a safe and adequate blood supply for hospital patients in our area.

If you are between 16 and 100 years old, we have just the right job for you! We offer a variety of volunteer opportunities and will work with you to determine the role that most closely matches your strengths and experience; believe us when we say, "Your skills are needed."

Volunteer positions include Donor Room Assistants, Clerical Assistants, On-Site Recruiters for blood drives, Telephone Recruiters, Receptionists and Couriers.

If you think you might be interested in volunteering, please contact Pamela Hamm, SCBC's Volunteer Coordinator, at 850-877-7181, or email her at pahamm@scbcinfo.org.

A Labor of Love for the Community

SCBC would like to thank all of its donors who took time out on their day off to help fight holiday blood shortages. Our Labor Day blood drives collected over 320 units of blood, which enabled us to secure a safe and adequate blood supply in an historically difficult and uncertain time.

We appreciate your selfless contributions, along with your patience with us on this busy day. Keep up the good work!
